

To: AmeriHealth Caritas Pennsylvania (PA) Pediatric Shift Care Providers

Date: November 1, 2023

Re: Update to procedure codes (S9123 and S9124) and modifiers for Electronic Visit Verification (EVV) reporting for pediatric shift care services.

Details:

AmeriHealth Caritas PA will follow the Pennsylvania Department of Human Services (DHS) guidelines and will terminate procedure codes S9123 and S9124 and replace with procedure codes T1002 and T1003 effective January 1, 2024.

To avoid the possibility of claims denials, all pediatric nursing services rendered by home health nurses (RN or LPN) must use the procedure codes as listed below for dates of service on or beyond January 1, 2024.

Procedure Code	Modifier	Code Description	EVV Code Description
T1002	See note below	RN Services, up to 15 minutes	Home Health -Nursing (RN)
T1003	See note below	LPN Services, up to 15 minutes	Home Health -Nursing (LPN)

Note: A TT modifier will still be required if/when providing individualized services to two (2) members in the same setting.

If you have any questions regarding this notice, please contact your Provider Account Executive or Provider Services at 1-800-521-6007.

Sincerely,

Steve Orndorff
Director, Provider Network Management
